REPLY TO
ATTN OF: HW-113

Larry Dietrich
Pasco Sanitary Landfill
Box 424
Pasco, Washington 99301

Dear Mr. Dietrich:

Enclosed is the U.S. Environmental Protection Agency (EPA) final report from the groundwater sampling program conducted at the Pasco Sanitary Landfill in March 1987.

EPA and the Department of Ecology are continuing to evaluate the need for further investigations and cleanup at the site. Based on the results of the enclosed study, EPA has determined it necessary to continue to monitor the groundwater wells on site and the nearby drinking water wells, particularly for the organic compounds. We will be contacting you with our specific plans early this spring.

Finally, I would like to inform you that EPA has designated a new site manager for this project, Mr. Keith Rose. He can be reached at (206) 442-7721 if you have any questions or concerns.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lori Cohen".

Lori Cohen
Superfund Site Manager
